U.S. NUCLEAR REGULATORY COMMISSION TELEPHONE CONVERSATION RECORD	Date: March 21, 2006 Time: 1 pm

Mail Control or Report No(s). 136268 License No(s). STC-133 Docket No(s). 040-00341

Name of Licensee:	Defense Logistics Agency/Defense National Stockpile Center
Name of Participant(s):	Kevin Reilly, Mike Pecullen
Telephone No.	
Subject: (NOTE: This will be used as the Documents Title in ADAMS)	need corrected copy for most recent amendment
Summary:	Kevin Reilly left several messages for me 3/14 and 3/20 while I was away. The most recent amendment released the Scotia facility for unrestricted use and took it off the license. However, kevin called to let me know that Scotia still has facilities that need MARSSIM surveys, that the documents submitted were only for 'portions' of the facility in a section that GSA wishes to use. They still have tungsten ores in buildings 505 and 506, that have U and Th but not in concentrations that require licenses. There were former stockpiles in those buildings that DID require licensing, so those facilities still need to be surveyed. He requested that the letter transmitting the corrected copy state which locations are being released for unrestricted use. I confirmed that would be listed.
