Subject	Status of DP RAI re Description of Survey Technique for FSS
---------	---

Synopsis	
----------	--

Called to talk about status of DP (1) and asked for additional information :

1. DP has undergone initial review with one question;
2. The DP states you will perform a survey to confirm presence or absence of material on site. What techniques will you use. NRC accepts MARSSIM methodology and it would be easier for you to confirm that you will use this technique. Other survey methodologies will require confirmation that they are statistically equivalent to MARSSIM.

Mr. Bonito stated he would pass this question to his contractor. I stated I would be glad to discuss this with his representative.

Action Taken or Required	Wait for response
