Subject: Oyster Creek License Renewal review schedule

Dear Mr. Maher

This email is a follow up to your question during our meeting at the Citizen Advisory Panel gathering on the evening of September 13, 2005.

You had asked for the convening date of the Advisory Committee on Reactor Safeguards (ACRS) for the Oyster Creek license renewal review. This convening is currently scheduled for October of 2006. Also, additional schedule & milestones information can be found on our website at:

<http://www.nrc.gov/reactors/operating/licensing/renewal/applications/oystercreek.html>

Thanks, and please let me know if you have any additional questions on this schedule.

Bo Pham
