Mr. O'Connell

Could any nrc office tell me what it rates wind speeds of 50-75 mph?
In these parts, that's a high wind.

I noticed your letter didn't clearly state what a high wind was.

I have some more insurance companies to contact this weekend about the NRC and LES.

If something the NRC licenses, places people in peril, shouldn't the NRC (government) and the State of New Mexico pay all the health bills instead of an insurance company?
