Subject: Its my allegation that NRC and State of New Mexico officials are ignoring the high winds we have

Its my allegation that NRC and State of New Mexico officials are ignoring the high winds we have in this area so the Les uranium enrichment plant can be licensed in Lea county, New Mexico.
When we get high winds here, we get what are called sandstorms. see below.

Its my allegation for the NRC to give Les a license and to allow the Louisiana Energy services enrichment plant to place emissions u234,u235,u236 and U238 into weather conditions such as high winds and sandstorms pose a danger to the public health in this area.

If the plant gets licensed, this will be part of a package Ill send to several insurance companies.

Phillip Barr
Lea County
