Dr. Thomas P. McLaughlin
Chairman, ANS-8
310 Valle del Sol Road
Los Alamos, NM 87544

Dear Dr. McLaughlin:

Due to a number of reassignments of NRC staff and a greater interest in involvement in the ANSI/ANS-8 Series Standards Working Groups, we would like to nominate additional NRC staff representatives. There are nine working groups for which we would like to nominate new NRC representatives, and seven working groups for which we would like to re-affirm the current nomination. Enclosure 1 lists the name of the working group and the nominated NRC representative, and Enclosure 2 lists the contact information for the NRC representative. In addition, we would like to re-affirm the nomination of Mr. Harry Felsner to the ANSI/ANS-8 Fissionable Material Outside Reactors Subcommittee. Ms. Melanie Galloway is the supervisor of all the NRC representatives listed in the table of nominations.

In accordance with OMB Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an authorized NRC representatives does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing organizations will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Sincerely,

/RA/

Richard J. Barrett
