

March 31, 2006

TO: ALL NRC LICENSEES AUTHORIZED TO CONDUCT LICENSED ACTIVITIES IN MINNESOTA WITH ADDITIONAL AUTHORIZATION FOR USE AT TEMPORARY JOB SITES AND/OR PERMANENT FACILITIES ANYWHERE IN THE UNITED STATES WHERE NRC MAINTAINS JURISDICTION (NON-AGREEMENT STATES)

SUBJECT: PROPOSED AGREEMENT WITH THE STATE OF MINNESOTA

By letter dated January 18, 2006, we informed you of the impending Agreement between the U.S. Nuclear Regulatory Commission (NRC) and the State of Minnesota, whereby, the NRC will relinquish regulatory authority for certain licenses of byproduct, source, and special nuclear material. We also explained that your NRC license, which authorized licensed activities to be performed in Minnesota and at temporary job sites and/or permanent facilities anywhere in the United States where NRC maintains jurisdiction (non-Agreement States), required an amendment prior to the transfer. This action is necessary since authorization to conduct licensed activities at temporary job sites and/or permanent facilities in NRC-regulated states will no longer be valid once the Agreement is signed and Minnesota assumes regulatory authority.

In our letter, we asked that you review your current program and decide if you wish to continue unlimited licensed activities in States that are under NRC jurisdiction. In your response, you requested that NRC issue you a new license authorizing licensed activities in the State of Minnesota. You also requested to maintain your NRC license which authorizes licensed activities in the United States where NRC maintains jurisdiction for regulating licensed material (non-Agreement States).

We have issued you a new license (enclosed) according to your request which will be transferred to the State of Minnesota and will become effective March 31, 2006. In addition, we have amended your current NRC license (enclosed) to only authorize licensed activities in non-agreement states. Please note that the changes made to your current NRC license are printed in **bold font**.

We appreciate your cooperation. Should you have any questions regarding this letter, please contact either Patricia Pelke at 630/829-9868 or James Lynch at 630/829-9661.

Sincerely,

*/RA/*

Steven A. Reynolds, Director  
Division of Nuclear Materials Safety
