Attn: L.A.T.  
Re: Amendment Request to License No. 45-25517-01, Docket No. 030-35378

Dear Sir/ Madam:

Please be advised that Interstate Construction Corp., also known and doing business as Branscome Richmond, wishes to request an amendment to the above referenced license.

For your information, Interstate Construction Corp., DBA Branscome Richmond, recently purchased specific assets of APAC-Atlantic, Inc. These assets consisted of APAC Richmond operations only and included two (2) nuclear testing devices, both of which are 4640 models and previously incorporated under License No. 45-21343-02, Docket No. 030-33317. The Interstate Materials License as referenced above currently accepts the 4640 gauging devices so to the best of my knowledge, no changes are necessary regarding this. Please note that it is not the desire of Interstate Construction Corp. to initiate any changes to the APAC-Atlanta, Inc. Materials License.

3600 WARBR0 ROAD  
MIDLOTHIAN, VIRGINIA 23112  
PHONE: 804-744-1135  
FAX: 804-744-3203

At this time, we wish to request that **Item 10** be amended to include our storage facility located at 3600 Warbro Road, Midlothian, Virginia 23112. We will also continue to utilize our storage location at 2106 Deepwater Terminal Road, Richmond, Virginia 23234, as contained in our current license.

With regards to our original application dated May 10, 2000, specifically **Item 8**, as I expect you are aware, The Virginia Department of Transportation no longer offers a Nuclear Safety Certification Course as provided in prior years. Training for individuals working in or frequenting restricted areas will be provided by Troxler Electronic Laboratories, Inc. and/ or other certified or approved vendors or providers available in the Richmond area.

We trust that we have provided sufficient information to your office regarding the above, but if you should have any questions or require further information, please do not hesitate to call.

Sincerely,

Scott R. Wynn  
Safety Manager
