Subject: IPEC status report for October 20

Indian Point Energy Center

Daily Status Report

A/33

October 20, 2005

Operational Status

Indian Point Unit 2 is operating at 100% and has been online 320 days.

Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 15 days. Entergy is continuing the investigation into a leak in the IP2 spent fuel pool. The NRC is conducting a special inspection on the issue. Earlier this week, Entergy released the results of a second round of sampling well results.

Updated Dry Cask Storage Factsheets Available

Entergy has produced an updated informational brochure, available in electronic and hardcopy format that explains the details of dry cask storage. Contact Andrea Blizard at 914-271-7081 or by return email at kmcmull@entergy.com <mailto:kmcmull@entergy.com> for a copy.

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

IPEC has a toll-free number, 800-822-9602, for radiological information on liquid and airborne releases as permitted in our operating licenses. Please note that there is now a single number for both IP2 and IP3.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
