>
> Brian Holian, the NRC Region I Director, Division of Reactor Projects (DRP) will visit IPEC tomorrow afternoon (Thursday, Oct. 13) to tour the IP2 Spent Fuel Pool (SFP) leak area. Brian is scheduled to be in Albany tomorrow morning and will visit IPEC prior to returning to the Region. He has not requested a meeting with IPEC Senior Management. However, he would like to have someone from IPEC management meet him at the SFP leak area for the tour.
