Subject: Copy of invitation to November 3 Brief for Stakeholders

Mr. Cox and Mr. Hipschman:

Below is a copy of the invitation that Fred Dacimo has sent to the external stakeholders inviting them to briefing on November 3, 2055 at Indian Point. We have sent invitations to about 40 external stakeholders thus far. I understand that the NRC will send representatives to the briefing.

October 26, 2005

The Honorable Elliot Engel
The United States House of Representatives
3655 Johnson Avenue
Bronx, NY 10463

Dear Mr. Engel,

Please accept this invitation to an informational meeting at the Indian Point Energy Center regarding our investigation of the spent fuel pools. The meeting will be held at the Indian Point Energy Center's Generation Support Building on November 3, 2005.

The theme of the meeting is "Spent Fuel Pool Investigation." The program will summarize the steps Entergy has taken to determine the source of the spent fuel pool leak and the results of the water sampling program. Mr. Don Leach, project manager for the spent fuel pool investigation, and Mr. Don Mayer, director special projects, will summarize the results of the investigation thus far and highlight the next steps to be taken.

We are extending this invitation to local, state and federal officials and emergency management professionals in the four county Emergency Planning Zone. Representatives from the Nuclear Regulatory Commission will also be attending.

While Entergy has used a number of means to let citizens know what is happening at the site, we recognize that there is no substitute for a face-to-face discussion.

The program will begin at 9:30 a.m. with badging at the access office located in the Emergency Operations Facility at the main entrance to Indian Point. The Spent Fuel Pool Investigation presentation will be held at the Generation Support Building followed by a tour of the facility. Lunch will be provided.

Our security procedures require all our visitors to complete an access authorization form. A copy of the form is attached and should be returned to Kathleen McMullin via fax at 914-827-7779 by November 1.

I hope you will be able to attend and I look forward to answering your questions.

Sincerely yours,

A/25-

Fred Dacimo
Vice President Indian Point Energy Center
