

April 5, 2006

MEMORANDUM TO: Chairman Diaz
Commissioner McGaffigan
Commissioner Merrifield
Commissioner Jaczko
Commissioner Lyons

FROM: Luis A. Reyes */RA/*
Executive Director for Operations

SUBJECT: 2005 HURRICANE SEASON LESSONS LEARNED REPORT

I am forwarding for your information a copy of the final report from the 2005 Hurricane Season Lessons Learned Task Force, dated March 30, 2006, which will be made publicly available on April 7, 2006. The objective of the Task Force was to review NRC, licensee, and State preparations for and response to the 2005 hurricanes and recommend areas for improvement. The Task Force was also asked to consider how the preparation and response to other natural phenomena could be improved by thinking broadly about the lessons collected. The Task Force made 13 recommendations, assigned them a priority and grouped them into general areas. The Task Force also identified those items which should be addressed in advance of this hurricane season.

Following my assessment of the report, my office will task the staff to take action to address all recommendations in the report and to ensure appropriate short term actions are addressed prior to June 1, 2006. The staff plans to review the report's recommendations and determine which recommendations should be incorporated into the agency's new Lessons Learned Program for significant lessons learned.
