Subject: Amendment request for St. Vincent's Medical Center, mail control 138433

Reference: St. Vincent's Medical Center
License No.: 06-00843-03
Docket No.: 03001245
Mail Control No.: 138433

To: Gerry Randall, RSO

I was just assigned to work on this amendment. It will likely be a couple of weeks before I am able to review the request to add SIR-Spheres, however I wanted to get back to you immediately about the request to add Adam Tazi as authorized medical physicist (AMP). With his additional experience and documentation of Nucletron training, I believe that he now meets the requirements to be named AMP. Since the time of your original request, there is a new attestation requirement for first-time AMP's. Would you please provide a signed attestation statement from Dr. Krithivas that meets the requirements of 10 CFR 35.51(b)(2), for example: "I attest that Adam Tazi, Ph.D. has satisfactorily completed the requirements in 10 CFR 35.51(b)(1) and (c) and has achieved a level of competency sufficient to function independently as an authorized medical physicist for high dose rate remote afterloading." If you also wish to propose Dr. Tazi as AMP for intravascular brachytherapy, provide documentation of vendor training and add intravascular brachytherapy to the preceptor attestation statement.

You may fax this information to 610-337-5269, referencing mail control 138433. You may wish to leave an e-mail or voice-mail message to alert me when the fax is sent. Please note that I will be away on an inspection trip for the entire week of April 3.

After I complete my review of the SIR-Spheres request, I'll let you know if any additional information is needed.

Thank you,

Sandy Gabriel
