re: Western Nuclear, Inc. Split Rock Site  
Fremont County, Wyoming

Dear Mr. Janosko:

Enclosed are three copies of the deed and title policy demonstrating the acquisition by Western Nuclear, Inc. of Lot 1, Red Mule Acres Subdivision, Fremont County, Wyoming from the Jamermans.

Western Nuclear, Inc. has now acquired, in fee, or purchased durable, institutional controls for all of the property located within the proposed long-term care area for the Split Rock site. This letter should be a supplement to Western's submittal to your office of February 10, 2005 which contained a detailed outline of the acquisition of eleven out of twelve parcels in the "Red Mule" area. The enclosures herewith demonstrate the acquisition of the twelfth parcel.

Very truly yours,

Harley W. Shaver
