**SYSTEM EVALUATION OF LISTED SYSTEMS THAT PROCESS
SAFEGUARDS AND/OR CLASSIFIED INFORMATION
(OIG-05-A-14)**

Status of Recommendations

<u>Recommendation 1:</u>	Correct the inaccuracies in the inventory of listed systems.
Response Dated September 19, 2005:	Agree. The Senior IT Security Officer (SITSO) will send a memo out to each NRC office that details the current listed system information known for the office. The memo will request current information on all listed systems owned by the office and will provide information on the process to accredit the systems. The inventory will be updated with this current information. Completion date: January 31, 2006. ACTION: SITSO and All NRC Offices
OIG Response:	The proposed corrective action addresses the intent of this recommendation. This recommendation will be closed when OIG receives notification and verifies the inventory of listed systems has been updated and is accurate.
Status:	Resolved.

(OIG-05-A-14)**

Status of Recommendations

Recommendation 2: Validate the inventory of listed systems annually.

Response Dated
September 19, 2005: Agree. The SITSO will send a memo out to each NRC office annually that details the current listed system information known for the office. The memo will request current information on all listed systems owned by the office and will provide information on the process to accredit the systems. The inventory will be kept up to date annually. Completion date: January 31, 2006.
ACTION: SITSO and All NRC Offices

OIG Response: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and validates the accredited inventory of listed systems.

Status: Resolved.

(OIG-05-A-14)**

Status of Recommendations

<u>Recommendation 3:</u>	Develop procedures for notifying OIS of changes in system information for listed systems on the inventory.
Response Dated September 19, 2005:	Agree. OIS will develop procedures for certification and accreditation of listed systems. System owners will be required to notify the SITSO in writing of any major changes in systems information of listed systems and system information will be required to be updated annually. Completion date: March 1, 2006. ACTION: OIS
OIG Response:	The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and evaluates the developed procedures for certification and accreditation of listed systems.
Status:	Resolved.

**SYSTEM EVALUATION OF LISTED SYSTEMS THAT PROCESS
SAFEGUARDS AND/OR CLASSIFIED INFORMATION
(OIG-05-A-14)**

Status of Recommendations

<u>Recommendation 4:</u>	Develop procedures for recording inventory information for listed systems that are composed of multiple components.
Response Dated September 19, 2005:	Agree. The information system security tracking database will be modified to handle multiple components of a listed system. When a listed system is comprised of multiple components, the system will be given a name and each of the components will be treated as a subsystem. Procedures will be developed to ensure listed systems are recorded appropriately. Completion date: March 1, 2006. ACTION: OIS
OIG Response:	The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and evaluates the procedures for recording inventory information for listed systems that are composed of multiple components.
Status:	Resolved.

Status of Recommendations

Recommendation 5: Develop procedures for ensuring all listed systems have an up-to-date, approved security plan prior to being put into operation.

Response Dated
September 19, 2005: Agree. OIS will develop procedures for certification and accreditation of listed systems that ensure all listed systems have an up-to-date, approved security plan prior to being put into production. Completion date: March 31, 2006.
ACTION: OIS

OIG Response: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and evaluates the procedures for the updated and approved security plan for the listed systems.

Status: Resolved.

**SYSTEM EVALUATION OF LISTED SYSTEMS THAT PROCESS
SAFEGUARDS AND/OR CLASSIFIED INFORMATION
(OIG-05-A-14)**

Status of Recommendations

Recommendation 6: Develop procedures for ensuring system owners/sponsors respond to OIS requests for security plan updates in a timely manner.

Response Dated
September 19, 2005: Agree. A procedure will be developed to ensure that an EDO ticket is issued to each NRC office annually requiring the office to provide security plan updates for each listed system processing safeguards and/or classified information by December 31 of that year.
Completion date: March 1, 2006.
ACTION: OIS

OIG Response: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and evaluates procedures ensuring system owners/sponsors respond to OIS requests for security plan updates in a timely manner.

Status: Resolved.

(OIG-05-A-14)**

Status of Recommendations

Recommendation 7: Develop procedures for verifying all required security controls are implemented on listed systems.

Response Dated
September 19, 2005: Agree. OIS will develop procedures for verifying all required security controls are implemented on listed systems. Completion date: May 1, 2006.
ACTION: OIS

OIG Response: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and evaluates the procedures for verifying the implementation of required security controls on listed systems.

Status: Resolved.

**SYSTEM EVALUATION OF LISTED SYSTEMS THAT PROCESS
SAFEGUARDS AND/OR CLASSIFIED INFORMATION
(OIG-05-A-14)**

Status of Recommendations

Recommendation 8: Require listed systems that process safeguards and/or classified information to use operating systems that support the implementation of required security controls.

Response Dated
September 19, 2005: Agree. System accreditation will not be granted to listed systems that process safeguards or classified information with operating systems that do not support the implementation of required security controls. OIS will send a memo out to each NRC office notifying them of this requirement. Completion date: March 1, 2006.
ACTION: OIS and All NRC Offices

OIG Response: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives and evaluates the operating systems that support the implementation of required security controls for listed systems that process safeguards and/or classified information.

Status: Resolved.
