Dear Sir / Madam:

Subject: VIRGIL C. SUMMER NUCLEAR STATION
DOCKET NO. 50/395
LICENSE AMENDMENT REQUEST – LAR 05-3664
EMERGENCY FEEDWATER SYSTEM ISOLATION VALVES
WITHDRAWAL LETTER

Reference: Jeffrey B. Archie Letter (RC-05-0157) to Document Control Desk, dated
November 29, 2005 [ML053360289]

South Carolina Electric & Gas Company (SCE&G), acting for itself and as agent for South Carolina Public Service Authority, hereby requests to withdraw the amendment request submitted on November 29, 2005. This amendment request was for the V. C. Summer Technical Specifications (TS), Specification 3/4.7.1.2.

SCE&G has determined that a withdrawal is prudent because several factors have changed since the initial inception of the current modification. SCE&G has determined that further investigation into potential alternative solutions is warranted.

This change may be resubmitted in time for approval and implementation during Refuel 17, scheduled for Spring 2008.

Should you have questions, please call Mr. Robert G. Sweet at (803) 345-4080.

Very truly yours,

Jeffrey B. Archie
