Mr. Pierre Saget, Chief  
 Engineering and Construction Branch  
 Basalt Waste Isolation Division  
 Department of Energy  
 Richland Operations Office  
 P. O. Box 550  
 Richland, Washington 99352

Dear Mr. Saget:

I have received notification from DOE Headquarters that the Exploratory Shaft Meeting dates, December 3-4, 1985, are now firm. It appears that these dates are convenient for the NRC and DOE alike. The five (5) documents listed in Mr. Olson's letter of October 10, 1985 to John Buckley have arrived.

We have several new members on the NRC BWIP team. You mentioned in a previous conversation with J. Buckley that a tour of the Near Surface Test Facility and Exploratory Shaft Site may be possible. I think it would be helpful for the newcomers if a tour could be arranged. Attached is a list of probable meeting/tour attendees with their social security numbers and birthdates.

If you require further information please let me know.

Sincerely,

*JS*
