

DOCKET NUMBER
PROPOSED RULE # 26

76

(TOFR 50442)

From: <bobex42@yahoo.com>
To: <rulemaking@nrc.gov>
Date: Tue, Apr 4, 2006 8:57 AM
Subject: Response from "Contact Us About Rulemaking-Ruleforum"

DOCKETED
 USNRC

April 4, 2006 (2:54pm)

Below is the result of your feedback form. It was submitted by
 (bobex42@yahoo.com) on Tuesday, April 04, 2006 at 08:57:10

OFFICE OF SECRETARY
 RULEMAKINGS AND
 ADJUDICATIONS STAFF

comments: In regards to the working hour restrictions at Nuclear Power Plants, the workers should not be working more than 8 hours a day. It is well documented that the body slows down after 8-10 hours. All of the problems at Nukes, TMI, Chernobyl, Peach Bottom, happened at nights. Then to force the operators to work 12 hour shifts is incredible!

Van,

Attached is a comment letter on the Fitness-for-Duty proposed rule that I received via e-mail.
