Dear Mr. Amtutz:

I am responding to your recent phone call to Tammy Croote, Senior Fee Policy Analyst, about the higher annual fees billed to you this year. Your \$11,100 invoice is the Fee Category 3I fees listed under 10 CFR 171.16, Schedule of Materials Annual Fees and Fees for Government Agencies Licensed by the Nuclear Regulatory Commission (NRC), of the FY 2005 Final Fee Rule. Enclosed is a copy of the FY 2005 Final Fee Rule. Explanations for the increases are discussed in this document (p. 30540, *g. Materials Users*). You can also read this rule online at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can gain entry into the NRC's Agencywide Documents Access and Management System (ADAMS), which provides text and image files. Use the term 'FY 2005 Final Fee Rule' to search the site. The comments received and the NRC's work papers that support these final changes to 10 CFR parts 170 and 171 are also available electronically.

The NRC, by law, has to recover 90 percent of its budget authority from fees. In calculating the annual fees for Materials Licenses, Fee Category 3I, (1) increase in budgeted resources for the materials class of licensees and (2) changes in estimates of average professional staff review time for license applications and inspections resulted in a large percentage increase. The estimates of average professional staff time was derived from the biennial review performed for the Fiscal Year (FY) 2005 fee rule. You are being billed the FY 2005 rate since the FY 2006 fee rule is not yet effective.

Please call me at (301) 415-0161 if you have any questions.

Sincerely,

/RA/

Renu Suri
Fee Policy Analyst
Division of Financial Management
Office of the Chief Financial Officer
