EPA - Marsha Willhite
Bus. chief for Bureau of Water
EPA's approach is diff.

Rich Cobb - section chief
under Marsha (Bulldog).

Issue of groundwater protection. Don't care about
MPC. If you are threatening to
contaminate a class 1 aquifer they are
concerned. Don't feel compelled to accept
CFA standard. They don't care whether the
groundwater is below the protected area
or outside it. - Don't make any diff if its
on site or off site. Renewal of Braidwood in PDES
permit is pending. - Use this as a lever to force action by
Braidwood - reduce generation of tritium / other actions. D1
