As an authorized representative of the above named facility, I hereby certify that the information on this form is true and correct. Additionally, I recognize that I am responsible for assuring that this facility is in compliance with all sections of ECL Article 40 and 6 NYCRR Parts 595, 596, 597, 598, and 599, not just those cited below:

-- The facility must be re-registered if there is a transfer of ownership.
-- The facility has maintained it's requirements relating to daily, monthly, annual and five year inspections as required by Part 598.7 and has it's SPR annually updated as required by Part 598.1(k).

-- The Department must be notified within 3 business days prior to adding, replacing, reconditioning, or permanently closing a stationary tank.

-- This certificate must be signed and posted on the premises at all times.

Posting must be at the tank, at the entrance of the facility, or the main office where the storage tanks are located.

-- Any person with knowledge of a spill, leak or discharge must report the incident to DEC within two hours (1-800-457-7362).

Delivery License Number: T-NY002-L06

Date of Expiration: December 31, 2006

Pursuant to Tennessee Department of Environment and Conservation Regulations, and in reliance on statements and representations made by the licensee in application dated November 7, 2005, with attachments, a license is hereby issued authorizing the licensee to ship radioactive material described below to a licensed disposal/processing facility within Tennessee. This license is subject to all applicable rules and regulations of the Tennessee Department of Environment and Conservation and orders of the Division of Radiological Health, now or hereafter in effect.

The license authorizes shipment of any radioactive material (except special nuclear material sufficient to form a critical mass) in any chemical and/or physical form and in a quantity not to exceed the possession limit of the licensed recipient.

The licensee is authorized to ship radioactive material from the facility located at:

Nine Mile Point Nuclear Station (including Units 1 & 2)
Lycoming, New York

into or within Tennessee to a disposal/processing facility that is licensed by Tennessee to receive such material.

The licensee shall comply with all applicable provisions of the regulations and conditions of the recipient facility's license.

Effective date of this license: January 1, 2006
