Yes, its the same. We'll take the lead and get the AITS adjusted accordingly.

Anne,

I want to double back with you on this one. The AITS I have says it's assigned to DRP/Satorius. We don't have a problem with you taking the lead and preparing the response, but want to verify that we're talking about the same AITS. The AITS I have is R06-0017(pb). Is that the same one that you have?

Steve
