

April 4, 2006

Mr. B. F. Maurer, Acting Manager  
Regulatory Compliance and Plant Licensing  
Westinghouse Electric Company LLC  
P.O. Box 355  
Pittsburgh, PA 15230-0355

SUBJECT: DIABLO CANYON POWER PLANT, UNIT NO. 1 AND 2 – REQUEST FOR  
WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE (CAW-06-2112)  
(TAC NOS. MD0385 AND MD0386)

Dear Mr. Maurer:

By letter dated March 13, 2006, Westinghouse Electric Company LLC submitted an affidavit dated March 14, 2006, executed by you, requesting that information in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.390:

Diablo Canyon Diversity and Defense-in-Depth Analysis - RPS/7100 Project

A nonproprietary copy of the document was provided for placement in the NRC's Public Document Room and for addition to the Agencywide Documents Access and Management System Public Electronic Reading Room.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (i) The information sought to be withheld from public disclosure is owned and has been held in confidence by Westinghouse.
- (ii) The information is of a type customarily held in confidence by Westinghouse and not customarily disclosed to the public.
  - (a) The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any on Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
  - (c) Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the information in the document entitled, "Diablo Canyon Diversity and Defense-in-Depth Analysis - RPS/7100 Project," marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at (301) 415-1445.

Sincerely,

**/RA/**
