or Report No(s).

Name of Licensee: Hampton University, Center for Advanced Medical Instrumentation

Name of Participant(s): Paul Gueye, Dept of Physics, Hampton U
Betsy Ullrich, NRC

Telephone No.

Subject: inspection - need for submission of proposed new RSO

(NOTE: This will be used as the
Documents Title in ADAMS)

Summary: The call was in response to email I sent to Paul Gueye and Douglas Kieper regarding the contact information and RSO information. When I attempted to inspect the license in Hampton on February 27, neither was available. Dr. Kieper did not talk with me, but Dr. Gueye was reached by telephone at a different location than is listed on the license. On February 27, Dr. Gueye told me that Dr. Kieper was no longer involved with the program but that Dr. Gueye would be the RSO, also that Mr. Gasparian and Dr. Keppel were still involved but neither was available, and that no materials had yet been possessed or used under the license. On that day, I told Dr. Gueye that we needed a letter from Hampton University that stated that Dr. Keiper was no longer the RSO and that proposed Dr. Gueye as the new RSO and provided his training and experience with radioactive materials. He said it would be done. However, no letter was ever received.

After several attempts to reach Drs. Kieper and Gueye by telephone, I sent a request by email to both, and the Physics Department Chair, requesting that someone get in touch with me to discuss the license because we have not yet heard from them. Dr. Gueye called and confirmed that he will be the contact, and said that he would send a letter. We again discussed what information should be in the letter. He also confirmed that correspondence should be sent to the address at Hampton University listed at the bottom of his email.

Action Required: email to inspection folder
