Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Orderly Shutdown Plan for the SLC Operations at the Bloomsburg Facility.	
Summary:	SLC submitted the orderly shutdown plan to the NRC Region I office via letter dated March 15, 2006. While both the "02 " and "08" licenses require a shutdown plan to be submitted the letter only referenced the "08" license. The purpose of the phone call was to confirm that SLC understood that the shutdown plan is required by both licenses and that the applicable license conditions would have to be complied with while the current licenses are active. William Lynch stated that he was aware that both licenses had a requirement to submit the shutdown plan and he offered to re-submit the cover letter, referencing both licenses. I told Mr. Lynch that I would document this conversation and that would be sufficient confirmation that the licensee was aware of the requirement in both licenses. In summary the March 15, 2006 shutdown plan submitted to the NRC by SLC applies to both the "02" and "08" licenses.
