06 APR - 6 PM 3: 02  
STP

Dear Governor Pawlenty:

On behalf of the Organization of Agreement States (OAS) Executive Board and all the members of OAS, I would like to congratulate the State of Minnesota on Minnesota's new status as an Agreement State, pursuant to the Atomic Energy Act of 1954 (the Act), as amended, section 274b. Minnesota is the 34<sup>th</sup> state to enter an agreement with the U.S. Nuclear Regulatory Commission under the Act since 1962.

The OAS is a voluntary, scientific and professional society comprised of management and staff level representatives from the Agreement States. The OAS is committed to the improvement of radiation regulation nationwide, and to fostering a cooperative and productive partnership among the Agreement States, with the U.S. Nuclear Regulatory Commission, and with other Federal, State and Local agencies involved in the regulation of radioactive materials.

The Minnesota Department of Health, Division of Environmental Protection, Section of Asbestos, Indoor Air, Lead and Radiation has participated in OAS activities for many years in anticipation of becoming an Agreement State. We look forward to the program's continued participation in our efforts, and welcome their Manager, Ms. Linda Bruemmer, in her new status as an Agreement State Radiation Control Program Director.

If you would like further information on the OAS, its meetings, or other activities, please do not hesitate to contact me, or visit our web-site at [www.agreementstates.org](http://www.agreementstates.org).
