Subject: IPEC status report for November 4

Indian Point Energy Center

A/S

Daily Status Report

November 4, 2005

Operational Status

Indian Point Unit 2 is operating at 100% and has been online 335 days.

Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 31 days. Power level was decreased briefly this afternoon to conduct a stop valve test on the turbine. Operations crews are performing routine tests, maintenance and surveillances.

Entergy is continuing the investigation into a leak in the IP2 spent fuel pool. Experts in hydrology and ground water modeling have been hired to assist in the investigation. Next week, new monitoring wells are scheduled to be dug near the spent fuel building as part of the hydrology investigation and divers will be in the spent fuel pool as part of the spent fuel pool liner inspection.

NRC Inspections at Indian Point

The NRC is continuing its special inspection on the spent fuel pool issue and is continuing its conference calls to brief stakeholders.

The NRC was on site this week to conduct an inspection on the emergency plan. The NRC will hold a public hearing on the new requirements for siren on November 16.

An NRC inspection team concluded their first week of a safety systems inspection. They focused on the Unit 3 component cooling water system and safety injection system. The NRC Team will return on November 14 through 18 to complete the inspection.

BM_40154 Updated Dry Cask Storage Factsheets Available

Entergy has produced an updated informational brochure, available in electronic and hardcopy format that explains the details of dry cask storage. Contact Andrea Blizard at 914-271-7081 or by return email at kmcmull@entergy.com <<mailto:kmcmull@entergy.com>> for a copy.

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
