Subject: IPEC Status Report for November 7

Indian Point Energy Center

A/10

Daily Status Report

November 7, 2005

Operational Status

Indian Point Unit 2 is operating at 100% and has been online 338 days.

Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 34 days.

Spent Fuel Pool Investigation

Entergy is continuing the investigation into a leak from a small hairline crack in the IP2 spent fuel pool. This week, new monitoring wells are scheduled to be dug near the spent fuel building as part of the hydrology investigation and divers will be in the spent fuel pool to install a vacuum box over two areas where potential flaws were identified as part of the spent fuel pool liner inspection.

The NRC is continuing its special inspection on the spent fuel pool issue and is continuing conference calls to brief stakeholders.

BM_40154 Updated Dry Cask Storage Factsheets Available

Entergy has produced an updated informational brochure, available in electronic and hardcopy format that explains the details of dry cask storage. Contact Andrea Blizard at 914-271-7081 or by return email at kmcmull@entergy.com <<mailto:kmcmull@entergy.com>> for a copy.

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
