Subject: IPEC status report for November 15

Please note correction. WHUD will perform a test of the EAS after both siren tests this morning.

A/11/6

Indian Point Energy Center

Daily Status Report

November 15, 2005

Operational Status

Indian Point Unit 2 is operating at 100% and has been online 346 days.

Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 42 days.

Entergy to Test Sirens Today

Entergy, the owner of the Indian Point Energy Center, will conduct two full-volume tests of the emergency alert notification sirens in Westchester, Rockland, Orange and Putnam counties today between 10 a.m. and 10:30 a.m.

Note: W/HUD Radio (100.7 FM) will perform a test of the Emergency Alert System immediately following the both siren tests.

During the two tests, all 156 sirens will sound simultaneously for approximately four minutes. The sirens will begin at low volume and rapidly rise to full volume.

NO RESPONSE ON THE PART OF THE PUBLIC IS NECESSARY

DURING TODAY'S TEST +

During an emergency at Indian Point, the counties would sound all 156 sirens simultaneously for four minutes at full volume, alerting the public to tune to their local Emergency Alert System (EAS) radio or TV station for important information. Sounding the sirens is a signal for residents to listen to Emergency Alert System broadcasts for important information.

Spent Fuel Pool Investigation

Entergy is continuing the investigation into a leak from a small hairline crack in the IP2 spent fuel pool.

Last week a diver was in the spent fuel pool to install a vacuum box over two areas where potential flaws were identified as part of the spent fuel pool liner inspection. No leakage was detected in this test. Later this week a second dive evolution will be performed near the third area where a small potential flaw was identified in a video inspection of the liner.

The NRC is continuing its special inspection on the spent fuel pool issue and is continuing conference calls to brief stakeholders.

BM_40154 Updated Dry Cask Storage Factsheets Available

Entergy has produced an updated informational brochure, available in electronic and hardcopy format that explains the details of dry cask storage. Contact Andrea Blizard at 914-271-7081 or by return email at kmcmull@entergy.com <<mailto:kmcmull@entergy.com>> for a copy.

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
