Subject: IPEC Status Report for Oct. 13

Indian Point Energy Center

Daily Status Report

Portions Ex 4

B/9

October 13, 2005

Operational Status

Indian Point Unit 2 is operating at 100% and has been online 313 days. The NRC is conducting a special inspection regarding cracks in the IP2 spent fuel pool. Entergy is working with experts in hydrology and environmental monitoring to investigate the leak.

Exempt
4

Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 8 days.

Entergy to Conduct Siren Test on October 18

Entergy will conduct two full volume tests of the Indian Point emergency alert notification sirens on Tuesday, October 18 between 10:00 and 10:30 a.m.

During the test, the sirens will sound twice at full volume for about four minutes in all four counties in the Emergency Planning Zone, Westchester, Putnam, Rockland and Orange counties.

The tests are being conducted to ensure that both the primary and backup siren activation systems are operating reliably. Plant personnel have been assigned to check on the operation of the sirens.

Media ads and public service announcement have been placed in local new media to inform residents about the test.

Training Drill Scheduled for October 19

Entergy, New York State SEMO and the four counties in the Emergency Planning Zone will conduct a training drill for the new Joint Information Center on October 19. The drill will involve the Emergency Operations Center at Indian Point and the JIC located at the DOT Traffic Management Center in Hawthorne, N.Y.

Updated Dry Cask Storage Factsheets Available

Entergy has produced an updated informational brochure, available in electronic and hardcopy format that explains the details of dry cask storage. Contact Andrea Blizard at 914-271-7081 or by return email at kmcmull@entergy.com <mailto:kmcmull@entergy.com> for a copy.

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups.

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

IPEC has a toll-free number, 800-822-9602, for radiological information on liquid and airborne releases as permitted in our operating licenses. Please note that there is now a single number for both IP2 and IP3.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
