SUBJECT: INTERIM QUALITY ASSURANCE PROGRAM MANAGEMENT CHANGE

Reference: Docket 71-0900

Dear Mr. Lewis:

This letter is to inform you about an interim change to our Washington Group International Engineered Products Department Quality Assurance Program Management. Our QA manager, Mr. Val Cannon was offered, and has accepted, an assignment at Washington Group International, Washington TRU Solutions, also in Carlsbad, New Mexico. Although still employed by Washington Group International, and available only a few miles away if he is needed for consultation, Mr. Cannon's new position requires EPD to search for a permanent QA manager.

In the interim period, Mr. Matt Leroch will be the acting QA Manager. Mr. Leroch is a 30-year veteran of the Westinghouse system, having held positions as an Engineer, Design Engineer, Project Manager, Manager of Projects, and Marketing and Sales Manager. He also has a Bachelor Degree in Mechanical Engineering. Mr. Leroch has worked in the nuclear environment for more than 30 years and has the appropriate training, background, and management experience to lead the QA department for this temporary period.

I would be delighted to entertain a visit or phone interview to allow you to get to know how Matt and I will manage our QA program until we find a new permanent QA Manager. You can reach me at (505) 234-5703 or on my cell phone (505) 239-0716.

Sincerely,

Michael P. McNamara
General Manager
