Tomas,

I am trying to send this again, original was returned by System Administrator, you must be getting a lot of spam this morning.

John

Subject: SS&Ds

Tomas,

I am looking for the following SS&Ds to include in our license amendment:

The RAMCO 50 source which is used in the Gammator 50 & M34 units Isomedix and the GammaCell 1000 (Nordion).

And the C-440 source which is used in the Nordion GC3000.

Also I have an incomplete SS&D, OH-298-S-101-S FTC Model 10 series. Can you send me a copy of this as a pdf? This is a Cf-252 neutron source.
