ENO

John,

Attached is a PDF of the letter report for gamma spectroscopy and the tritium results for which rush analyses of the samples received from December 30, 2005 were requested.

A hard copy of the letter report is being mailed and should arrive within a few days.

Please contact me at 865-241-3242 or Wade Ivey at 865-576-9184 if there are any questions.

Dale Condra

Lab Manager

Lisle, IL 60532-4351

**SUBJECT: ANALYTICAL RESULTS FOR SECOND SET OF WATER SAMPLES NEAR
THE BRAIDWOOD NUCLEAR GENERATING STATION IN BRAIDWOOD,
ILLINOIS [INSPECTION REPORT 456/457/2005-010] (RFTA NO. 06-001)**

Dear Mr. House:

The Environmental Survey and Site Assessment Program (ESSAP) of the Oak Ridge Institute for Science and Education (ORISE) received ten water samples on December 30, 2005 that were collected near the Braidwood Nuclear Generating Station in Braidwood, Illinois for rush processing. The samples were analyzed by gamma spectroscopy (GS) (Procedure CP1, Revision 15) and for tritium (H-3) by liquid scintillation analysis (Procedure AP2, Revision 15; Procedure CP4, Revision 3). The sample identifications and collection data are presented in Table 1. The GS results are presented in Table 2. The H-3 results are presented in Table 3.

ESSAP's Quality Control (QC) requirements were met for these analyses. The QC files are available for your review upon request.

If you have any questions, please call me at (865) 241-3242 or Wade Ivey at (865) 576-9184.

Sincerely,

Dale Condra
Laboratory Manager
Environmental Survey and
Site Assessment Program
