**Article 40-Evacuation Policy**-Moved and seconded that the Town vote to oppose the Nuclear Regulatory Commission's and Licensee's new emergency planning policy, as follows:

To see if the Town will accept the following:

The Town of Duxbury opposes the Nuclear Regulatory Commission's and Licensee's new emergency planning policy that states, "The minimum recommendation that shall be made at a General Emergency is to evacuate 2 miles around and 5 miles downwind from the plant." The Town of Duxbury recognizes that the impact from nuclear disaster in a General Emergency is far greater than 2 miles around and more than 5 miles downwind and therefore planning should not be reduced from the current 10-mile Emergency Planning Zone, rather it should be expanded; further the concept of "downwind" is not appropriate in a coastal community where wind directions are variable. The Clerk of Duxbury shall forward the text of this article to The Town of Duxbury's State and Federal delegations, to all Select Boards within the Emergency Planning Zone of Pilgrim NPS, the Nuclear Regulatory Commission and Entergy Corp., so that the intent of the citizens of Duxbury is widely known. Voted Mar. 14, 2006
