U. S. Atomic Energy Commission
Licensing Division
1901 Constitution Avenue, N.W.
Washington 25, D.C.

SUBJECT: Source Material License No. C-2734

Dear Mr. Johnson:

Our Source Material License No. C-2734 expires November 1, 1957. We request that this license be extended for as long a time as present regulations permit and that we be authorized to receive possession of and/or title to 10,000 pounds of normal uranium metal or its compounds during the course of the license. This material will be used for further processing and for studies in connection with the preparation of reactor fuel elements. We further request that this license permit us to transfer and deliver possession of and/or title to source material to any person licensed by the Atomic Energy Commission within the limits of his license.

We would appreciate your early action on this license application inasmuch as we do not wish to see our license lapse if at all possible to prevent such occurrence.

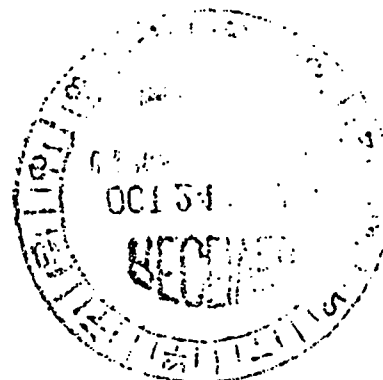

Very truly yours,

Frederick M. Belmore
