Subject: Re: Chicago Tribune Article Regarding Braidwood Tritium

Nick,

Thanks. I heard that from a few other folks. But, I missed the broadcast. Sounds like there maybe more attendance at the meeting this week.

Steve, there was also a news story on WBBM channel 2 news over the weekend, but I only caught the tail end of the broadcast. It didn't sound like they were making a big deal of it though.

Greetings,

The Chicago Tribune ran an article on the front page today regarding the tritium contamination at Braidwood. The article can be found at:

<http://www.chicagotribune.com/features/health/chi-0601250209jan25,1,4763314.story>

I've also provided a text copy in the attachment that provides a cleaner print.

Thank you,

Steve
