SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Ms. Murray:

In an NRC Form 314, "Certificate Of Disposition of Materials," dated February 23, 2006, Mr. Thomas Templeman contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your byproduct materials license no. 24-32396-01.

The NRC staff has reviewed your final status surveys. Based on its review, the staff has concluded that no licensable radioactive material was ever procured under this license, as attested to on the NRC Form 314 referenced above.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 24-32396-01 is hereby terminated with the enclosed Amendment No. 02.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and the enclosed license termination document will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions or comments regarding our handling of your license in this situation, please call me at (630) 829-9841.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".

Colleen Carol Casey
