Robert A. Nelson, Acting Chief
Low-Level Waste & Decommissioning Projects Branch
Division of Waste Management
Office of Nuclear Material Safety & Safeguards
US Nuclear Regulatory Commission
Washington, DC 20555-0001

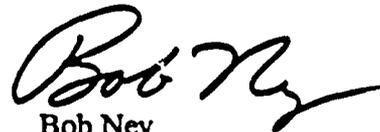

Dear Mr. Nelson,

Please find enclosed correspondence that I have received from Mr. Sherwood Bauman, who is a constituent from Cumberland, Ohio. Again, Mr. Bauman is writing in regard to the Nuclear Regulatory Commission's (NRC) work on the Environmental Impact Statement (EIS) at the Shieldalloy site.

Mr. Bauman would like the NRC to delay the release of the final draft of the EIS until a time when the underlying documents have been completed. More specifically, he would like the OEPA's RI/FS and Preferred Plan to be completed and integrated into NRC's final EIS draft before it is released. If this is not possible, I would ask that Mr. Bauman's request be given every consideration to the OEPA's RI/FS and Preferred Plan in the final version of the EIS.

Thank you in advance for your consideration. If I may ever be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Bob Ney
Member of Congress
