I've located a copy as well as an Addendum for updating of Bay populations. Working on getting it scanned and to you.

Bill

Bill:

Jeff needs Appendix D from the 316 demonstration report. For some reason we received only A, B, C, E, and F. See his message below.

Hi Kirk

The information I received from OCGS for the 316 determinations did not include an Appendix D I need this in order to determine the net configuration, etc that was used for the entrainment sampling I am working primarily with the Versar report for this section, since it was the basis for the NPDES renewal, but Versar did not describe the methods I was hoping you had it and could send along
