SUBJECT: Source Material License No. C-2734

Dear Mr. Doulos:

On October 22nd, a letter was forwarded to the attention of Mr. Lyall Johnson asking that our License No. C-2734 be amended to allow us to receive a total of 13,000 lbs. of normal uranium metal or compounds during the course of the license.

It is not possible for us to buy this material commercially and we want to purchase it from the Atomic Energy Commission.

Your cooperation in giving this application your attention is certainly appreciated.

Cordially,
