Subject: Source Material License C-5014

Dear Mr. Delaney:

The subject license expires February 28, 1961. Please renew this license and all amendments for as long a period as present regulations permit.

It is requested that this license permit us to receive possession of and title to all forms of source material for further processing, for use in our research and development program, for analytical purposes and for resale. It is also requested that this license permit us to transfer and deliver possession of and/or title to all forms of source material to any person licensed by the AEC within the limits of his license. Accurate records of receipts, inventories and shipments of source material are maintained at our plant at Hematite, Missouri.

All activities authorized under this license will be confined to our plant at Hematite, Missouri, and for analytical work and small research effort at the laboratory of the Mallinckrodt Chemical Works main plant in St. Louis, Missouri.

We will be happy to supply any further information you may require in order to process this request.

Respectfully,

Commercial Operations

SOURCE MATERIAL LICENSE

License No. C- 5308

Dated:-----

**Mallinckrodt Chemical Works
Second & Mallinckrodt Streets
St. Louis 7, Missouri**

**Attention: Mr. John G. Moore
Vice President**

Pursuant to the Atomic Energy Act of 1954 and Section 40.21 of the Code of Federal Regulations, Title 10 - Atomic Energy, Chapter 1, Part 40 - Control of Source Material, you are hereby licensed to receive possession of and title to source material for use in accordance with the procedures described in your application of September 29, 1960. This license extends to your plant at Hemetite, Missouri.

You are further licensed to transfer and deliver possession of and title to refined source material to any person licensed by the Atomic Energy Commission, within the limits of his license.

As a condition of this license, you are required to maintain records of your inventories, receipts and transfers of refined source material.

This license is subject to all the provisions of the Atomic Energy Act of 1954 now or hereafter in effect and to all valid rules and regulations of the U. S. Atomic Energy Commission, including 10 CFR 20, "Standards For Protection Against Radiation."

Neither this license nor any right under this license shall be assigned or otherwise transferred in violation of the provisions of the Atomic Energy Act of 1954.

This license shall expire **October 31, 1961.**
