Subject: Braidwood NGS Letter Report

John,

Attached is a PDF of the letter report and the tritium results for the residential and lake water samples for which expedited analysis was requested.

A hard copy of the letter report is being mail and should arrive within a few days.

Please contact me at 865-241-3242 or Wade Ivey at 865-576-9184 if there are any questions.

Dale Condra
Lab Manager
ORISE/ESSAP

ORISE

OAK RIDGE INSTITUTE FOR SCIENCE AND EDUCATION

December 19, 2005

Mr. John House
U.S. Nuclear Regulatory Commission
Region III
2443 Warrenville Road
Lisle, IL 60532-4351

**SUBJECT: ANALYTICAL RESULTS FOR WATER SAMPLES NEAR THE BRAIDWOOD
NUCLEAR GENERATING STATION IN BRAIDWOOD, ILLINOIS
[INSPECTION REPORT 456/457/2005-010] (RFTA NO. 06-001)**

Dear Mr. House:

The Environmental Survey and Site Assessment Program (ESSAP) of the Oak Ridge Institute for Science and Education (ORISE) received water samples from December 5, 2005 through December 12, 2005 that were collected near the Braidwood Nuclear Generating Station in Braidwood, Illinois. As directed, the residence and lake samples were first analyzed for tritium (H-3) to meet your request for rush processing. The analysis was performed by liquid scintillation (Procedure AP2, Revision 15; Procedure CP4, Revision 3). The sample identifications and collection data are presented in Table 1. The H-3 results are presented in Table 2.

The report containing the gamma spectroscopy data for selected samples and the H-3 data for the remaining samples will follow as soon as the data review process permits.

ESSAP's Quality Control (QC) requirements were met for these analyses. The QC files are available for your review upon request.

If you have any questions, please call me at (865) 241-3242 or Wade Ivey at (865) 576-9184.

Sincerely,

Dale Condra
