Mr. Frederick M. Belmore  
Spec. Asst. to President  
Mallinckrodt Chemical Works  
3600 North Second Street  
St. Louis 7, Missouri

Dear Mr. Belmore:

It would be very helpful to us to have photographs showing progress of construction work completed or underway involving licensed facilities and facilities to be used in the fabrication or processing of licensed special nuclear material.

Would it be possible for you to furnish us one or more such photographs of each such facility constructed or under construction by you? If you have a program of making periodic photographs during construction, we would appreciate getting copies.

Sincerely yours,
