MALLINCKRODT CHEMICAL WORKS REQUEST FOR UNIFORM SHIPPING CONTAINERS

SYMBOL: LRL:JCD

Attached is a copy of a letter dated July 7, 1958 in which Mallinckrodt Chemical Works requests that a minimum spacing for shipping containers be established so that uniform shipping procedures can be agreed on by the various licensees. It is our understanding that it is Mallinckrodt's intent to get together with other licensees to design a safe shipping container that could be made by a single manufacturer in large quantities thus reducing the cost of containers. Please advise us of your comments on MCW's letter.
