**MALLINCKRODT NUCLEAR CORPORATION REQUEST FOR ALLOCATIONS**

**SYMBOL: IRL:RCD**

Mallinckrodt Nuclear Corporation has requested allocations for 1800 grams of contained U-235 as UF<sub>6</sub> containing uranium enriched to about 15% for conversion to uranium metal for Atomics International, and 1.56 kilograms of U-235 as UF<sub>6</sub> containing about 6% U-235 also for conversion to uranium metal.

Mallinckrodt advises that the Chicago Operations Office will issue three drafts covering these materials as follows:

Draft No. COO-4000-45 (Project No. 4105-2)

Draft No. COO-4000-46 (Project No. 4105-4)

Draft No. COO-4000-44 (Project No. 4105-4)

We will allocate the requested material to Mallinckrodt upon receipt of your notification that the transfer from 4000 to 7000 has been accomplished.
