MALLINCKRODT NUCLEAR CORPORATION REQUEST FOR ALLOCATION - DOCKET 70-36

Mallinckrodt Nuclear Corporation has requested additional allocations of 1730 pounds each of uranium enriched to 4.2% and 4.6% in the U-235 isotope as UF_6 , for use in the fabrication of spare fuel elements for the first half of the N. S. Savannah core. We will allocate the requested material to Mallinckrodt upon notification from you that the transfer from 4000 to 7000 has been accomplished.
