

Office Memorandum • UNITED STATES GOVERNMENT

TO : Files

DATE: March 10, 1959

FROM : 
C. P. McCallum, Jr.

SUBJECT: MALLINCKRODT CHEMICAL WORKS REQUESTS DATED DECEMBER 10, 1958, JANUARY 22 & 30 AND FEBRUARY 2 & 9, 1959 FOR AMENDMENT TO THEIR LICENSE SNM-33 - DOCKET NO. 70-35

ANALYSIS AND FINDINGS

Reference is made to the memorandum to the files dated April 23, 1958 and a memorandum to the files to which it in turn refers regarding Mallinckrodt Chemical Works' request for a special nuclear material license and subsequent amendments thereto.

By application dated December 10, 1958, January 22 & 30 and February 2 & 9, 1959, the applicant has requested that their license SNM-33 be amended to authorize an increase in the scope of the pelleting activities and additional shipping procedures.

Based on our review of the information furnished by the applicant, it is hereby determined that the applicant is qualified, by training and experience, to use special nuclear material for the purpose requested and that the applicant's procedures, facilities and equipment are adequate to protect health and minimize danger to life and property. It is therefore determined that SNM-33 may be amended to authorize the requested additional activities.

APPROVED:

J. C. Delaney
