Dear Mr. Johnson:

We request an allocation of 340 kg. uranium as  $UF_6$  enriched to 2.0% + 0.068%. This material is needed to fill purchase order 205-28841 which we have received from the General Electric Company for Uranium Dioxide.

This is to be used for experiments for advanced Dresden cores. As the material is needed urgently, we shall appreciate anything you can do to expedite the allocation.

Very truly yours,
