Dear Mr. Johnson:

Re: Special Nuclear Material License SNM-33

We have an order from Sylvania-Corning for 25 kilograms of Uranium Metal 90% enriched, for which we need 26 kilograms of UF<sub>6</sub>.

Our present 90% allocation contains a balance of only 19.5 kilograms. We would like this increased to 50 kilograms of uranium to provide 26 kilograms for the Sylvania-Corning order and a remainder of 24 kilograms as a reserve for future small orders.

We shall appreciate anything you can do to expedite this as we need to order the material for the Sylvania order immediately.

Very truly yours,

MALLINCKRODT CHEMICAL WORKS
