Licensing Branch  
Division of Licensing and Regulation  
U. S. Atomic Energy Commission  
Washington 25, D. C.

Subject: SNM 33 Extension - Contaminated Trash Incinerator

Reference: Our letters of October 6, 1960 and November 8, 1960.  
Telephone conversation with Mr. John Lane on  
November 14, 1960

Gentlemen:

In accordance with the telephone conversation with Mr. Lane, the following is offered as supplemental information which should be included with the referenced letters.

Preparation of material batches for the incinerator, as with all operations involving uranium in our plant, will be under technical supervision.

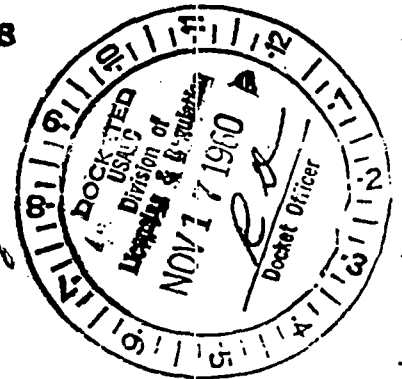

I believe this completes the information required in order to extend our license to include the incinerator. However, please do not hesitate to call should you require additional information.

If there will be any delay in issuing the formal license, would you please advise us as soon as possible by telegram or TTX that approval has been granted.

Respectfully yours,

MALLINCKRODT CHEMICAL WORKS
